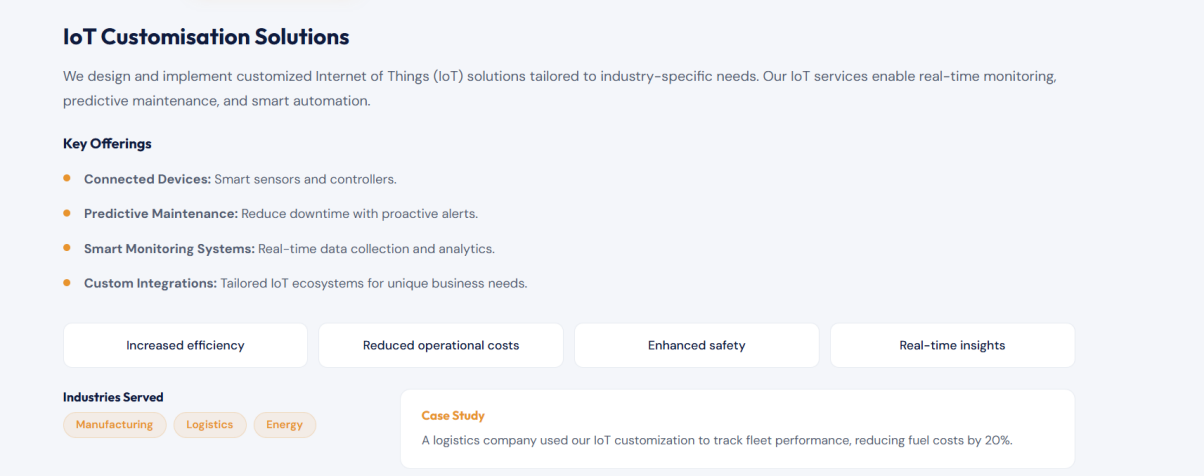
Changes to Website

Landing page –

- Need logo in the top ribbon to be bigger and visible in all the pages.
- The landing page - can be just 2 columns - with logo on left and the text on right.. with the iOT, AI/ML etc below the logo.
- Add mission and Vision statements from About to the landing page - no scrolls on landing page.
- Menu options – Technology Hub, Solutions, Industries, Why Us, Management Team, About
- Click on the logo in the ribbon to return to landing page from anywhere. Also have a 'Home' icon to return to the landing page

Technology Hub –



IoT Customisation Solutions

We design and implement customized Internet of Things (IoT) solutions tailored to industry-specific needs. Our IoT services enable real-time monitoring, predictive maintenance, and smart automation.

Key Offerings

- **Connected Devices:** Smart sensors and controllers.
- **Predictive Maintenance:** Reduce downtime with proactive alerts.
- **Smart Monitoring Systems:** Real-time data collection and analytics.
- **Custom Integrations:** Tailored IoT ecosystems for unique business needs.

Increased efficiency | Reduced operational costs | Enhanced safety | Real-time insights

Industries Served

Manufacturing | Logistics | Energy

Case Study

A logistics company used our IoT customization to track fleet performance, reducing fuel costs by 20%.

- Below the key offerings are the Benefits and should be highlighted accordingly.
- Remove the section of 'Case Study'

Solutions –

- All boxes should be clickable to a detail page.
- Remove the duplicate image which matches the image in 'Technology Hub' image

1) **AI Vision for safety to be renamed – "AI based smart safety solution".**

NexVision Safety Monitoring Capabilities include -

Workplace Safety & Compliance

- Fire and Smoke Detection.
- PPE Compliance Detection
- Missing Safety Signage Identification
- Unattended Object Detection

Security & Loss Prevention

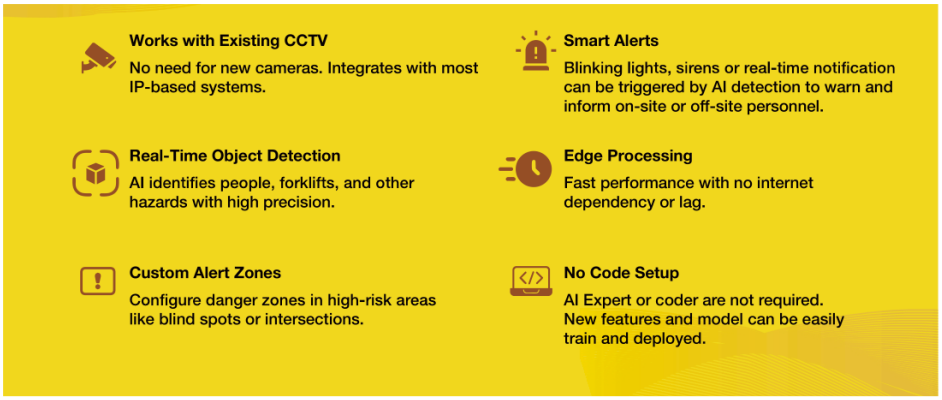
- Material Theft Detection

Traffic & Vehicle Analytics

- Vehicle Overspeed Detection
- Vehicle Classification & Counting
- Automatic License Plate Recognition (ALPR)

Unique Benefits of NexVision

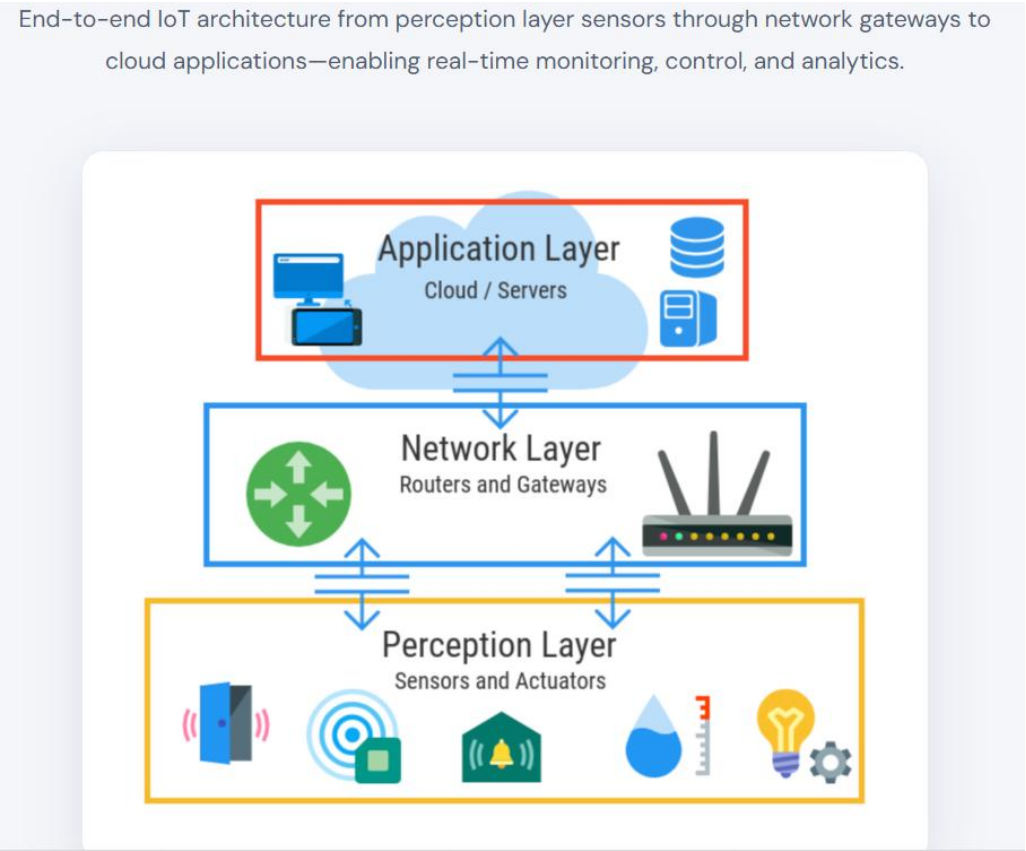
- **NexVision is suitable for a wide array of industries.**



2) **Replace "Customer Pain Point Solution" with "Cyber Security Solutions"**

3) **Domain Specific AI & iOT -** Show the EdgeHub Features section. The header should read – "Comprehensive device management from edge to cloud". The word – "EdgeHub Features" to be removed.

4) **iOT Customisation Solutions -** Change the text 'iOT for Manufacturing" to "Typical iOT Architecture"



5) **Industry Specific Accelerators –**

Industrial Robotics

Complete Automation Line Assembly Area
Complete facilities with electrical and pressurized air supply
Large floor area facilities for assembly line up to 30m length

Automation Machine Assy Area

Modular Laminar flow hood

AI – Cyber

Solar / Green Energy – Monitoring

Freezer monitoring

Solutions to Contact Centers - (Eg : AI based Voice Analyzers)

6) Contact Us –
